

A Good Start for your Child ? Welcome at Day-care centre Allkidsz !

Your Child can come to our day-care centre or your child can go to our pre-school. We can also recommend you for our Afterschool program for Children at Elementary school. Please sign up to day!

Infant program Ages 0-2

We understand that every moment with your infant is precious, and do our utmost to keep your little one safe, happy, and loved. Our group leaders, will spend time to care of your child with singing, playing and cuddling.

Focusing on primary areas of development. Infants become on to imitating sounds and names of others. They also will be able to recognize the daily rhythm, and to build up a bond of trust with their fellow educators.

Toddler Program Ages 2-4

Each classroom is filled with an array of learning materials that cultivate the fine and gross-motor skills of our toddlers, and develops their receptive and expressive language.

We satiate their intellectual curiosity, all while building positive relationships with their peers and adults. Their days are filled with music, art, and productive play.

Pre-school education according to the Uk and Puk method

Although it may seem like fun and games to pre-schoolers, the curriculum we follow is full of educational elements. Pre-reading skills, such as letter and sound recognition, basic math concepts , and science exploration, are taught through fun and exciting games. Also the focus is upon reading , early writing and basic math and social skills. Playing together with peers enjoyed in a safe and child-friendly environment.

Elementary After-School ages 4-13

After school we pick up the children, by car, bus or walking. School-age children are given a quit environment for home work and projects, with supervised access to computers and tutoring assistance as needed. Crafts, games, social activities are also available to elementary students. Every day we undertake various activities focused on relaxation and skills. We also offer sports packages and clinics such as judo, dancing, ball sports and cooking classes and expression and creativity classes. We give the space to play together, share or do something for yourself at your own pace.
